To install DYNAMICS do the following

a. In C:\> root directory, create a directory, for example
   C:\>MD DYNAMICS
   This creates a directory with name DYNAMICS.

b. Get in the directory, for example
   C:\>CD DYNAMICS

c. Copy all the executable files from the diskettes provided, for example, insert in drive B: the diskette 1 named EXECUTABLES and write
   DYNAMICS:\> COPY B:\EXECUTE*.*
   This will copy all the executable files from the diskette to the hard disk. Repeat the above for the second diskette.

d. To run the program type
   DYNAMICS:\>DYNAMICS
